

Crowdfund Leicester Land Offer

Please answer the following questions if you are interested in using a Council-owned plot of land or other piece of land for a project which you will crowdfund for on Spacehive.

1. We'd like to know more about what you want to do. Please describe what your project idea is briefly?
2. Which piece of land are you interested in? Please provide as much information as possible, with a full description of the location and postal address if applicable.
3. Does the land belong to Leicester City Council or someone else? If someone else, please indicate who you think it belongs to.
4. Do you have a time limit for delivering your project?
5. What period of time do you think you would need the land for, or would you prefer to take on full responsibility and ownership from the current owner?
6. Have you had any discussions with anyone inside LCC about your proposal before considering CrowdFundLeicester and if so please explain a little more about this.
7. If the land is not owner by LCC, have you had any discussion with the landowner about using their land.
Note: you will need to demonstrate that you have the necessary permissions in place to take on/use the land.
8. Have you been to visit the location?

Yes/No

9. Why do you think this location is a good fit for your project? Think about access arrangements, what alterations might be required to make it a good fit, how it could benefit the local community etc.

10. Please consider and document what impact your proposal could have on any local residential properties or communities in the area and indicate how you might manage this. For example, your project might lead to more people visiting the area and using the space, which some local residents might object to.

11. Please use the space below to provide us with any further information that you think we will find helpful that is not covered by any of the above questions.
