

Cheshire West Crowdfund

Terms and conditions

1. Projects are to be delivered within six months of the grant funding money being paid, unless agreed in advance with the Council.
2. The Impact Report must be provided to the Council's satisfaction, which includes but is not limited to the providing of evidence to show expenditure. If the Project Owner does not provide the Impact Report following three requests from the Council, the Council will consider further sanctions available to it.
3. If the entire Project has not been delivered, or there is insufficient evidence in the Impact Report which shows the outcomes achieved to the satisfaction of the Council, the Council has the authority to require the paying back of the grant funding and the Project Owner must pay this back to the Council on demand.
4. Where the Council reasonably deems there to have been improper use of funds by a Project Owner or projects have not been achieved to the satisfaction of the Council, the Council may exclude the Project Owner (and by extension any known associates) from future funding rounds and take any legal action available to it.
